## Questions 21-27

Read the story about an interesting place.

Then answer questions **21-27**.

For questions **21-27**, indicate the correct answer (**A**, **B** or **C**) on your answer sheet.

**THE LOST TOWN**

When you go on holiday to the seaside you expect to spend most of your time lying on the beach or swimming and playing in the sea. But after a week of doing almost nothing, perhaps you would like to have a change. At Marton Sands there are all the usual attractions and entertainments, but there is something else for visitors to do.

Just a few miles up the coast you can find the hidden remains of an old town, with houses, churches and even a castle, all of which can be seen in the middle of a forest. Trees now grow where the main street once was, and the old, damaged walls of the buildings are covered in plants. Animals have made their homes where men lived and worked.

The experts say that North Marton was originally a Roman city, but its greatest moment came six hundred years ago, when it was England's second port after London. Rich businessmen lived there, poor people came to find work there, and the cathedral was large and beautiful.

Now, sadly, all of this has gone. A combination of terrible storms, economic problems and serious illnesses made the city suffer a loss of population that continued for over a century. After that the new town of Marton Sands grew and grew, and ships never came to the old city.

But we can still see something of the old place if we walk through the woods and use our imaginations to think of what it was like, hundreds of years ago.

## Example:

0 The town of Marton Sands is  
 A on the coast.

B in a forest.

C near London.

Answer:

0	A	B	C
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

21 Marton Sands offers visitors

A something more than most places.

B a beach and a few entertainments.

C a beach and the chance to do nothing.

22 The old town is difficult to see because

A it is on the coast.

B it is very small.

C it has trees around it.

23 Now the town is home to

A workers.

B animals.

C tourists.

24 The first people to live in the city were

A Romans.

B businessmen.

C poor people.

25 The town had a port that was

A smaller than London's.

B bigger than London's.

C the same size as London's.

26 North Marton got smaller

A in a very short time.

B about 100 years ago.

C for more than 100 years.

27 To have an idea of the old city we need to

A look at postcards of the town.

B imagine it in the past.

C take a trip by ship.

**PART 5**

For questions **28-35**, indicate your answers on your answer sheet.

Alligators are not as dangerous (**32**) ..... you may think. They are lazy, and not very brave. They spend (**33**) ..... of the day sleeping, and only come out (**34**) ..... night. They eat small animals and fish.

There were a lot of alligators in the past, (**35**) ..... now numbers are going down every year. This is a result of the terrible reputation alligators have. Men kill them just to feel safer.
